PERSONAL

W. J. Webster took a business trip to Leduc on Thursday.

Mrs. Wm. Boyle and Miss Boyle spent Thanksgiving Day in Leduc.

D. McNamara and Percy Abbott spent Thanksgiving Day in Wetaakwin.

Mr. and Mrs. D. A. Murray, of Lacombe, arrived in Edmonton Thursday evening.

Rev. A. Forbes and Mrs. Forbes, of Fort Saskatchewan, are in Edmonton today.

Miss Jenny Brandon went to Leduc on Thursday for a few days' visit to friends there.

Mr. Moody is in Edmonton today from Beaver Lake. He leaves for the lake tomorrow.

Dr. de L. Harwood, of Montreal, is visiting our town with the intention of locating with us.

R. J. Armstrong returned to Edmonton Thursday night from a business trip to Red Deer.

Mr. Lester Cannon, of The Orphanage, Edmonton, returned last night from spending several days at his home at Lacombe.

Mr. Malcolm McCrimmon, who has been confined to his house the past few days with a severe attack of bronchitis, is now improving, and expects to be out again in a few days.

His Excellency Monsignor Donato Sparrelli, Archbishop of Ephesus, and apostolic delegate in Canada, will arrive in Edmonton this evening. Tomorrow morning His Excellency will visit the religious establishments and the town of Edmonton, and drive to St. Albert in the afternoon, where a solemn reception will be given to the representative of His Holiness Pius X. on Sunday morning at the Cathedral of St. Albert. His Excellency will come back from St. Albert on Sunday afternoon and a similar reception will be tendered him by the congregation of St. Joachim's church at 7 p.m.

—Farmer's Advocate.—The auction sales of pure-bred swine to be held at Castairs, Olds, Innisfail, Red Deer and Lacombe during the week beginning Monday, November 2nd, should prove an excellent opportunity for the farmers of Northern Alberta to secure well-bred breeding stock at reasonable prices. There is probably no district in Western Canada where the general conditions are more favorable to hog-raising than the country east of the Rockies.

The finest barley we have seen this year was at Edmonton show, and there is no better concentrated food for the hog.

—Free Press.—Mr. Cyr, of the Dominion public works department, who went to Lloydminster, in the Barr colony, to superintend the erection of an immigration shed, is having difficulty in securing necessary lumber for the structure. Even the commonest grades of lumber are unobtainable. Mr. Cyr has gone to Edmonton to endeavor to get a supply there, but as the demand has been heavy at that point all wood for local purposes, he may have to go further afield to get what he wants. He will remain at Lloydminster until the building has been completed.

COUNCIL MEETING

City Fathers Hold Short Session—Usual Business Transacted.

The regular meeting of the Edmonton city council was held in the council chamber on Wednesday evening. The meeting was not called to order until after nine o'clock, as it was that hour before a quorum was in evidence. Mayor Short, and Councillors Grier, Cushing and Heinicke were present. The minutes of last meeting were read and adopted on motion of Councillor Grier and Cushing.

Communications.
G. R. Brenton requested that a by-law be passed licensing water carriers and permitting them to obtain water from the municipal waterworks system to sell to customers. This request was referred to the Town Solicitor for report.

At the last meeting of the council, Mr. Fry asked and was granted leave to lay the waterworks connections to his house, to be remunerated at the same rate as Mr. Whiteman, who has the contract for doing all this work. At last night's council meeting Mr. Whiteman intimated his intention of collecting the money for Mr. Fry's work as if he had done it himself. His grounds for this argument were that he had been given the contract for all of the work. The matter was referred to the Town Solicitor.

The Town Auditor asked for a key to the Secretary Treasurer's office and for the combination of the town safe. Mr. Goodridge, treasurer for the town, and Mr. Colling, assistant to the Secretary Treasurer, asked for an increase of salary. Mr. Goodridge is now getting \$45 a month, and Mr. Colling \$60 a month. Both requests were laid over for the present.

The committee of the council who were appointed for this purpose, announced that an agreement had been reached with Jno. Sommerville & Son, regarding their claim for damages, \$200 damages having been decided on.

Heinickl Fraser asked that the lane in front of the curling rink, which they are now using be improved. The Secretary Treasurer was requested to inform the firm that it has been customary for those using a lane to keep it in repair.

A local insurance agent applied to the council for leave to insure the waterworks engineer's house. It was decided to put \$1,000 on the building and give the insurance to F. Fraser. On account of the great amount of work he had done for the town in his capacity as secretary of the Board of Trade.

U. S. Bolander had a grievance regarding his assessment. Although he had successfully appealed against his assessment, his taxes had been levied on the amount of the first assessment. This difficulty arose from a letter regarding the matter going astray. A motion to remit all taxes over \$10.39 on Mr. Bolander's land, exclusive of his buildings was carried unanimously.

The bad condition of Fourth street, north of the fair grounds, was discussed. Water was collecting on the road at this point and was causing a great deal of annoyance to people using the road. The matter was referred to the chairman of the public works committee with power to act.

Petitions.
Two petitions for sidewalks were presented. A number of property owners petitioned for a sidewalk on the west side of Kensington avenue, from Second to Fifth street.

Wm. Easton and others petitioned for a sidewalk from the present sidewalk at Dr. Wilson's property, on down the hill on Sixth street. These petitions were granted, the work to proceed subject to the order of priority.

THE EASTERN SITUATION

London, Oct. 13.—The trend of today's early information regarding the far eastern situation is less alarming. The Frankfurter Zeitung, whose sensational announcement of the occupation of Ma San Shai by Japan yesterday occasioned disquiet today, publishes a telegram from Shanghai, saying there was no confirmation of the reported occupation of that place, adding that the Russo-Japanese negotiations at Tokyo concerning the evacuation of Manchuria gives an impression that the political situation in Japan is quiet.

The Kōrinboku Zeitung also prints a reassuring telegram from St. Petersburg, repeating a telegram from Port Arthur, stating that Viceroy Alexief has issued a contradiction of the reports of movements of Japanese troops to Corea. The telegram adds that reports circulated on the subject were evidently only intended to serve purposes of speculation and provoke disquiet.

A special dispatch from Rome says that forty-five Japanese officers, who have been studying at the military academies of Modena and Reggio, have been called to Japan by telegram, and immediately started for Brindisi, to embark for Japan.

The meeting of British admirals at Singapore has no connection with any special tension at present existing in the far east. The meeting was announced as far back as August, for the purpose of enabling commanders of the East Indian, China and Australian stations to confer with reference to a general scheme of the event of necessity, in the event of each being confined, as here before, to the sphere of their respective jurisdictions.

It has been arranged that a similar conference shall be held annually. Oct. 15.—The foreign situation here new looked upon the situation in the far east as being less serious than it was. The extreme point of difference, the extreme point of difference, Russia, it is asserted, would consider it a cause belli were Japan to land troops at Ma-San-Shai.

NEW SIDEWALKS

Nothing reveals Edmonton's progress to a greater extent than the number of new sidewalks that have been laid down this summer to connect outlying portions with the central portions of the town. The demand for the building of these sidewalks shows how the town has spread out and when it is stated that numerous petitions for sidewalks have come in at that time and the scarcity of building material, will not permit of construction, it is evident how great Edmonton's expansion has been. The following are the new sidewalks that have been built since March 1st, 1903:

Six-foot walk, east side of Fraser avenue, from Second to Third street, 495 feet.

Four-foot walk, west side of Fourth street, H.B.R., from McKay to Hardisty avenues, 500 feet.

Six-foot steps, west side of First street, H.B.R., from College avenue to McDougall street, 580 feet.

Six-foot walk, west side of Fourth street, H.B.R., from Jasper avenue to Victoria avenue, 670 feet.

Six-foot walk, east side of Fraser avenue, from Third street to Sixth street, 1,485 feet.

Mc. T. G. Leander, who has charge of this work, says that petitions for additional sidewalks have been granted that are not included in this list.

WINNIPEG MARKETS

Commercial, Oct. 10th.

OATS—The market is quiet. No old oats have been offering this week and it is presumed that the stock is about cleaned up. The various work camps throughout the country made a heavy drain upon the oats this year than was anticipated, and consequently what looked like a large surplus last spring has been converted into a shortage. New oats are offering slowly, not more than two of three millars per day being inspected. Millars are getting very few. This helps to keep up prices and we quote the same as a week ago. For new oats the bid price today on tracks Winnipeg is 25c per bushel, of 34 pounds. We quote present value of old rats:

No. 1 white, in car lots on track here, 35c per bushel. No. 2 white, 32c; feed grades, 30 to 31c; this quotation for feed grades is a nominal one as there are practically none offering. For William figures are the same as Winnipeg.

BARLEY—The movement is light and trade keeps quiet. No barley fit for malting has been seen yet. So far receipts have shown damage by rains. Feed barley is worth today in car lots on track Winnipeg, 35 to 36c per bushel, or 25 to 30c to farmers at country points.

WHEAT—There is not much change in the Manitoba wheat situation. The work of finishing harvest and threshing progresses slowly and weather not entirely favorable, and in the car lots, 2 northern and 2 northern runs to about 75 per cent of the whole. Trade during the week in the whole. Winnipeg market has been moderate by active and there is a fair demand for 1 northern, 2 northern and 3 northern at price to 1-1-1/2c higher than a week ago. At the close of business yesterday spot, on route past Winnipeg, and prices, via, 1 northern, all the same as before, 74c; 2 northern, 76c; 3 northern, 78c; all in store. For William and Port in store. No hard hard buyers at 8c in store. For William. Dried or scoured 1 northern is worth 86c, and 2 northern, 76c in store, King's elevator, Port Arthur.

No Where Else

Do your dollars serve you so well in the jewelry line as here. Your own judgment will tell you this if you will come in and see our goods and get our prices. No old, shoddy goods. All straight from the factory, and more coming all the time. We have been striving for some time to win the public's confidence and it is no boast to say we are succeeding, for being manufacturers we can give better satisfaction at a smaller cost than you can get elsewhere. One trial will convince you. We make a specialty of plain rings, initial rings, diamond mounting to order, and difficult repairs, etc., of all kinds.
